

MY VOYAGE

Now that you have planned for a voyage and thought about how you would create your own society, it's time to apply these ideas to yourself. Your task is to create a *MAP* of the voyage you will take from now. Use the four principles of wayfinding to think about *YOUR* voyage and where you are going. Your map will be worth 30 points.

1. ***Where am I am right now?***

- A. *What is my part in my family?*
- B. *What is my part in my school?*
- C. *What is my part in my community?*

Mark and label your current location on your map. What does it look/feel like?

2. ***Can I find the way to where I want to go?***

- A. *What is your "destination"?*
- B. *What plan do you have to get there?*

Mark your path, as well as any "islands" you might stop at along the way.

3. ***Are my experiences consistent and understandable enough to know where I've been and to predict where I should go next?***

- A. *Who is on your "crew"?*
- B. *What "supplies" will you need to bring?*
- C. *What difficulties will you face? How will you deal with them?*

Add a "crew" list, a "supply" list and mark potential "storms" on your map.

4. ***Can I recognize that I have arrived in the right place?***

- A. *How will you know when you have reached your "destination"?*
- B. *What do you think you will do next?*
- C. *Will you be satisfied at that point?*

Mark and label your final destination on your map. What does it look/feel like?

Be prepared to briefly explain your "voyage" and your map in class.
