MY VOYAGE

Now that you have planned for a voyage and thought about how you would create your own society, it's time to apply these ideas to yourself. Your task is to create a MAP of the voyage you will take from now. Use the four principles of wayfinding to think about YOUR voyage and where you are going. Your map will be worth 30 points.

1. *Where am I am right now?*
   A. What is my part in my family?
   B. What is my part in my school?
   C. What is my part in my community?

   Mark and label your current location on your map. What does it look/feel like?

2. *Can I find the way to where I want to go?*
   A. What is your “destination”?
   B. What plan do you have to get there?

   Mark your path, as well as any “islands” you might stop at along the way.

3. *Are my experiences consistent and understandable enough to know where I’ve been and to predict where I should go next?*
   A. Who is on your “crew”?
   B. What “supplies” will you need to bring?
   C. What difficulties will you face? How will you deal with them?

   Add a “crew” list, a “supply” list and mark potential “storms” on your map.

4. *Can I recognize that I have arrived in the right place?*
   A. How will you know when you have reached your “destination”?
   B. What do you think you will do next?
   C. Will you be satisfied at that point?

   Mark and label your final destination on your map. What does it look/feel like?

Be prepared to briefly explain your “voyage” and your map in class.
